Academic and Administrative Audit (AAA)

Ensuring the excellence of Higher Education requires the continuous practice of Academic and Administrative Audit (AAA). A robust administrative framework, coupled with regular audits, forms the cornerstone of a high-quality academic system.

Academic Audit is a structured, periodic, and systematic evaluation process that scientifically assesses the quality of academic processes within an institution. Its purpose is to ensure quality assurance and elevate the standards of academic activities in Higher Education Institutions (HEIs)

Administrative Audit involves the systematic evaluation of the efficiency and effectiveness of administrative procedures within an organization. This process encompasses the assessment of policies, strategies, and functions across various administrative departments, ensuring oversight of the overall administrative system

Through Academic and Administrative Audit, a continuous assessment is fostered, promoting ongoing evaluation, quality enhancement, and essential refinement. This process ultimately cultivates best practices within diverse academic programs. The objective is to systematically document evidence supported by empirical data, representing a hallmark of excellence and an indispensable practice in academic programs
